ANNUAL REPORT

United Way of Becker County

2021 - 2022

A Message from the United Way...

Life is a gift – and every single person in our communities is deserving of that gift. Deserving of hope. Deserving of compassion. Deserving of a chance to BE GREAT.

We feel extremely fortunate to live and work in a place where commitment to helping others is always a priority. You consistently devote your time, expertise and financial support to help those who need it the most.

This past year your generosity helped us raise \$257,000. Together we provided 8400 backpacks filled with weekend food for hungry kids - helped provide service dogs to our veterans – provided safe shelter to 150 women and children.

For 55 years, we've seen gifts of time, treasure and heart become gifts of life to those in our community who need it most. Life truly is a gift – and we extend our most sincere gratitude to each and every United Way donor, volunteer and Partner Agency for helping us pass it on. Together we ARE GREAT!
